

Testimonial from Keith Turner

Partnership: Keith & Linda Turner

Summary: Use of FlightPath in Young and Old Bird Racing

5 The Geetons
Abberton Road
Fingringhoe
Nr Colchester

Dear David,

Just a few lines to inform you of our achievements in the 2006 Racing Season whilst using your "FlightPath". We were supplied with the product via Chris Knowles of Stockport and asked to inform you of our views on the product.

Old Bird Racing

Our wins with old birds were 10 x 1st i.e. individual races without duplication. Inclusive in these wins was a "hat trick" of 1^{sts} with the East Anglian Classic, an achievement which has never before been accomplished.

Our method was to use "FlightPath" as part of our build up in the week of the Classic races.

Young Bird Racing

With young birds, from four races we have won 2 x 1st and are awaiting the result of the fourth of these.

With our young birds we have used "FlightPath" approximately every 3 weeks throughout the season.

We hope that the above information is of value to your Company, as we believe that "FlightPath" has been a significant factor in our success.

Best regards

Keith Turner
